This is to confirm and certify that the parts and/or assemblies listed above were tested and inspected in accordance with all applicable manufacturer specifications and procedures, A.P.I. RP-8B and/or customer specifications.

All dimensional Inspections, Proof Load, Functional Test, NDE Inspections and process surveillances were performed by ACPT in accordance with established manufacturer and ACPT quality procedures.

This certifies the above described item(s) meet the above specifications. Items which do not meet certification criteria have been tested according to specifications noted with the reason noted for non-certification. Load measuring instrument is accurate +/- 1% of reading as specified by ASTM E-4. Upon conclusion of testing no obvious defects were noted.

DISCLAIMER: As the use of these items are beyond the control of American Certification and Pull Testing, LLC, the purchaser and/or end user is solely responsible for the usability and suitability of these items.
